*Design Engineer focused on building polished, scalable digital products across product design and full-stack engineering.
Experienced in frontend architecture, UI/UX systems, and AI-driven products.*

EDUCATION

University of Caen Normandy (UNICAEN) Bachelor in Computer Science (CUPGE)	2025 – 2027 France
Cours Notre Dame (CND) High School General Baccalaureate	2025 France

PROFESSIONAL EXPERIENCE

Digeto <i>Design Engineer</i>	2025 – Present
• Led product design and frontend engineering for a global AI GTM engine, transitioning from freelance technical lead. • Redesigned and developed the company landing page using modern design systems. • Architected the frontend and product experience for the MVP platform, ensuring a premium, minimal aesthetic. • Produced comprehensive product documentation, user flows, interface systems, and technical scoping.	

PROJECTS

Verdyct <i>Co-Founder & Design Engineer</i>	2025 – Present
• Co-founded and currently developing an AI-native SaaS platform utilizing a coordinated swarm of specialized agents for global trade compliance and market validation. • Leading product design, UX architecture, and full-stack engineering to convert complex customs documents into declaration-ready files in minutes.	
Flowivate <i>Creator & Full-Stack Developer</i>	2024 – 2025
• Built a modular productivity dashboard focused on task management, well-being tracking, and deep work systems. • Engineered the MVP from scratch, developing interface systems, scalable frontend architecture, and core branding. • Architecting an upcoming pivot to a local AI-powered personal task agent planned for Q1 2027.	

LEADERSHIP & VOLUNTEERING

Chiens en Cavale <i>Vice President & Lead Developer</i>	2024 – 2025
• Built a full-stack reservation platform for a dog-walking non-profit serving senior and disabled people, scaling to 100+ active nationwide users. • Secured a €3,000 private grant in recognition of the platform's social impact and technical execution. • Designed the full visual identity, user booking experience, and comprehensive administrative dashboard.	

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, C, Lua, SQL, HTML/CSS
