

# Julius Peschard

## Design Engineer

France • Open to Remote & Relocation • peschardjulius03@gmail.com  
julius.works • github.com/julius-psc

*Design Engineer building products end to end — from systems thinking, interface decisions, and brand identity to shipped production code. Focused on polished developer tools, AI-native infrastructure, and high-quality product experiences.*

## EXPERIENCE

---

### Digeto

2025 – Present

#### Design Engineer

- Leading product design and frontend engineering for Digeto's GTM Engine, taking the platform from information architecture through production implementation.

### XSTREAM

2025 – Present

#### Lead Product Designer

- Leading MVP design, including brand identity, design system, component library, product flows, and developer handoff for the first version of the prototype.

### Chiens en Cavale

2024 – 2025

#### Design Engineer

- Built a full-stack reservation platform for a dog-walking non-profit supporting elderly and disabled people.
- Grew the platform to 100+ users and helped secure a €3,000 grant through its technical and social impact.

## PROJECTS

---

### Shotoku

2026 – Present

#### Co-Founder & Design Engineer

- Building an open-source authorization layer for AI agents, enabling developers to control and audit autonomous software.
- Designed the product identity and built the first developer experience, including the CLI, terminal UI, documentation, and landing page.

### Flowivate

2024 – Present

#### Founder

- Shipped v1 as a web productivity dashboard and am now redesigning it as a native macOS focus companion with local AI.
- Owned the product end-to-end, including strategy, brand identity, UX, frontend engineering, and technical architecture.

### Verdyct

2025 – 2026

#### Co-Founder

- Built an AI-powered SaaS validation platform that reached the Top 10 at the Pioneers AI Lab Hackathon at Station F.
- Later evolved the company into Verdyct, an AI-native customs operations platform after customer discovery.

## EDUCATION

---

### University of Caen Normandy

2025 – 2027

BSc Computer Science

France

## SKILLS

---

**Programming:** TypeScript, JavaScript, Python, C, SQL
